Education

STI College Caloocan 2022 — 2025
Bachelor of Science in Computer Science Caloocan City, Metro Manila

- 1.44 GWA
- Champion, Codefest (Local - Tagisan ng Talino), 2022–23 & 2023–24
- Alumni Scholar (Awarded for Senior High honors; 50% scholarship in college)

City of Malabon University 2020 — 2022
Bachelor of Science in Information Technology Malabon City, Metro Manila

Experience

Front-End Developer Lead (Intern) February 2025 — May 2025
Hiraya Technology Solutions

- Developed and maintained responsive, reusable front-end components for HirayaTech.ai using HTML, CSS, React.js, Tailwind CSS, and modern UI libraries.
- Led a Front-end team of 10+ and coordinated with cross-functional teams on 6+ projects, including HIMO Deep Well Level (NWRB), HIMO BEMS, and HirayaTech.ai Redesign, using Figma for wireframing, prototyping, and high-fidelity design.

Projects

TADUR: Construction Company Landing Page June 2025
Typescript, Next.js, React.js, TailwindCSS

- This project was created to showcase my ability to design and develop clean, responsive UIs that reflect a strong brand identity and user-friendly experience.

JARSNFT: Polygon-based NFT Marketplace February 2024 — December 2024
Typescript, Next.js, React.js, MySQL

- Directed and served as lead developer for a thesis project building a full-stack website application using Next.js, React.js, Typescript, deployed on Vercel.

CODEFEST: Mobile Inventory Management System April 2024
Java, Android Studio, Android SDK, XML, Figma

- Built and led a 1st-place hackathon team, solving problems under a 6-hour deadline and developing a fully functional inventory system in Android Studio (Java, XML) that met all competition objectives.

CINEMANIA: Movie Ticket & Reservation January 2024
Typescript, Next.js, React.js, TailwindCSS

- A web-based movie ticket booking and reservation system developed as a final project for my Data Structures and Algorithms course.

Skills

Languages: Typescript (Advanced), JavaScript (Advanced), PHP (Advanced), C# (Intermediate),

Databases: SQL Server, MySQL, PostgreSQL, Cloud-based DB (Supabase, Neon, Firebase)

Frameworks & Libraries: Node.js, Next.js, .NET, React.js, Tailwind CSS, Android SDK, WinForms

Developer Tools: Git, Docker, VS Code, Asana

Design & Prototyping: Figma, Photoshop

Learning Goals: Modern Dev Practices, MERN/PERN, ASP.NET Core, Docker/K8s, AWS, Cloudflare
