ABOUT ME

A recent Bachelor of Computer Science graduate with a passion for software development. As a self-taught programmer, I enjoy designing and building impactful software solutions that drive value for businesses. I am highly motivated, adaptable, and eager to contribute to real-world projects while continuously improving my skills in modern development practices.

EDUCATION

2022 - 2025

STI Caloocan

Bachelor of Computer Science

Gained a strong foundation in software development, data structures, algorithms, and systems design. Participated in the local Codefest competition and won the championship in both 2022 and 2023.

2020 - 2022

Malabon University

Bachelor of Information Technology

Before I shifted my course to BSCS, I focused on IT infrastructure, networking fundamentals, and introductory programming. I developed practical skills in troubleshooting, database management, and system analysis.

2018 - 2020

STI Caloocan

ICT - IT in Mobile App and Web Development

Specialized in mobile and web technologies, learning the basics of front-end and back-end development. Built simple applications using HTML, CSS, JavaScript, and Android development tools as part of the ICT strand under the K-12 curriculum.

EXPERIENCE

Feb 2025 - May 2025

Hiraya Tech Solutions

Front-End Developer

Served as a Front-End Developer Intern and team lead at Hiraya Tech, contributing to the development of web and mobile applications based on client requirements, while also enhancing and modernizing existing systems.

2024 - 2025

Freelancer

Full-stack Software Developer

Independently developed a commissioned student thesis project as a Full-Stack Web Developer during my third year of college, delivering a cross-platform application tailored to the client's specific requirements.

SKILLS

- ReactJS
- HTML / CSS / JS
- Next.js
- SQL, NoSQL
- Front-End
- Git Version Control
- Back-End
- NodeJS
